

“The Grease Gator combines innovations from aqueous chemistry development with separation technology to create a technology that cleans better than mineral spirits, is safe to use, and generates very little waste.”

From an article published in the Winter 2005 issue of “Clean Air Clips” by the Illinois Department of Commerce and Economic Opportunity.

The Aqueous Grease Gator eliminates waste and strengthens your good environmental and safety reputation.

Experience the Aqueous Grease Gator risk free with our Pilot Program.

You will clean parts 57% faster and :

- No hazardous waste.
- No hazardous fumes.
- ¶ Innovative aqueous technology breakthrough from the engineering labs at the University of Illinois.
- ¶ Eliminate the need for your parts washer service provider, simple maintenance is a snap.
- ¶ Savings that you can anticipate: 80-bay California dealership saved \$30,000 per machine per year.
- ¶ Operate the Grease Gator for less than \$300/year.
- ¶ Your mechanics will work faster and safer and save money.
- ¶ Savings are compounded by the extraordinary labor savings.

Call your Grease Gator Rep and arrange a Pilot today.
