

Are you ready to get off of the Mineral Spirits Parts Washer Cycle?

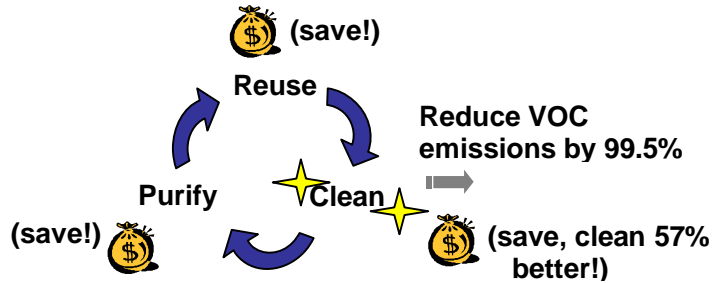

Operate the Grease Gator for less than \$300/year!

And move to the latest technology breakthrough in Aqueous Parts Washer technology: The Grease Gator.

The Grease Gator Elite

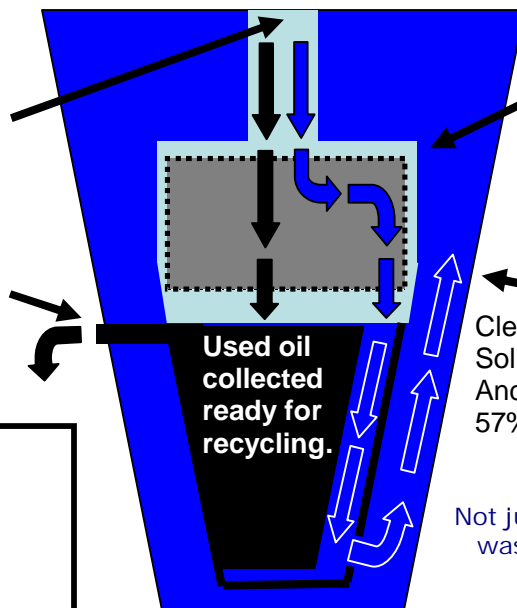

- ü The Grease Gator brings the advantages of a Chemical Management System to parts washing. Save money, help the environment, improve your workplace safety.
- ü Up until now, only large companies have been able to benefit from Chemical Management Systems (CMS). A CMS brings significant cost savings in the areas of chemical supply and disposal by utilizing reuse opportunities to reduce disposal costs and providing purified chemical supply options to reduce chemical supply costs.
- ü The Grease Gator is a Chemical Management System in a drum!

Here is how we put a Chemical Manager in a drum:

Special formulation Grease Gator Aqueous Cleaning Solution with very low emulsifying, oil-splitting properties keeps oil and water from mixing until the "Gator" gets it. Also, the solution includes LONG TERM rust protection that stays with the part.

Easy-to-use valve purges used oil into recycling container ready for resale. This valuable resource has value, call us to learn how to turn it into money!

Patented Grease Gator fluid purification unit immediately separates oil and water and prolongs cleaning solution life significantly.

Clean & Purified Grease Gator Solution returned for cleaning. And the Grease Gator cleans 57% better than mineral spirits!

Not just a parts washer, but a
