

Hero Biobased Ultra-Solve

Cleans & Protects

Ultra-Solve removes oil and grease and can leave a corrosion resistant barrier. Cleaned parts can be wiped dry, wet wiped or rinsed off with water. Ultra-Solve's high solvency power removes resins and polymers with ease. "It's amazing! It is by far the best cleaning agent we've ever used with such a low environmental impact in over 45 years in business!!" says a happy Ultra-Solve

Masonry to Metal, Lubricating Penetrant

- Clean masonry walls, metal equipment and engines.
- Cleans the outside of barbeque grills or anywhere where carbon buildup is an issue.
- Removes grease and grime from autos and trucks.
- Loosen rusted parts with ease, free stuck mechanisms and keep parts running smoothly.

Non-Polluting & Safe

Accidental overspray on vegetation when working with Ultra-Solve? No worries! In fact, Ultra-Solve's biobased and natural ingredients make it like a fertilizer to vegetation.

With low VOC emissions Ultra-Solve does not contribute to indoor air pollution like many cleaners. It contributes to a clean air environment for all occupants.

Cleaning Power

The cleaning power of non-aqueous cleaners is measured by the Kauri-Butanol (kB) value. The below table shows Ultra-Solve's strong kB value and other positive properties compared to other cleaners.

	VOC g/l	KB Value	Biobased/ Renewable	Biodegradable	Health Hazard	Water Solubility	Flammability (Flashpoint)	Color/ Odor	HMIS
Hero Biobased Ultra-Solve Cleaner Degreaser	1.55	67.3	Yes	Yes	No	Temporary Emulsion	No (> 350°F)	Amber / Mild	1,0,0
Mineral Spirits	771	30	No	No	Yes	No	Yes (105 °F)	Colorless / Solvent	1,3,0
Toulene	870	105	No	No	Yes	No	Yes (~ 104°F)	Colorless / Solvent	2,3,0
