

## TOUCHLESS HAND SANITIZER DISPENSER

The perfect dispenser for our Gel Alcohol Antiseptic Hand Sanitizer is our SSI Hand Sanitizer Dispenser. We have engineered it for both **Safety & Savings**.

### Highlights of this High-Quality Hand Sanitizer Dispenser System:

- Automatic, touchless, **ADA-compliant dispenser**.
- **Provides 27,000 uses** with a 5 gallon supply. This is **81 times more uses** than the standard wall dispenser and will save money on labor by requiring less time refilling as well as a reduction in the volume of hand sanitizer used by the dispenser. **Reduce costs by 75%**.
- Dispenser dose is the **perfect amount for total hand coverage** and the consistency of the gel product keeps the hand sanitizer on a user's hands **eliminating drippage waste**.
- Dispenser provides for quick hand sanitation. Dose requires **only 5 seconds for complete hand coverage** that refreshes and softens hands.
- Dispenser has a **fast recovery time** between uses allowing for rapid and frequent use. Won't become a bottleneck.
- Dispenser has a **LED light** to shine a light on the hands to aid in the efficient application of hand sanitizer.
- Dispenser is powered by a **long-lasting rechargeable 12-volt battery**, allowing for a service schedule that eliminates downtime and helps avoid a non-working dispenser.
- Drip tray **protects floor surfaces**.
- Additional space at the bottom of cabinet to **hold refills with a keyed lock to restrict access**. Dispenser will work with various sizes of refill including half gallon (2L), 1 gallon (4L) and 5 gallon (23L) pails.
- **Rugged stainless steel construction** suitable for harsh high traffic environments.
- **VIP Refill Plans Available** – Refill with SSI Gel Alcohol Antiseptic Hand Sanitizer at VIP pricing at intervals based on your need when you join this program.

Automatic dispenser is activated when hands are placed underneath
